المزايدة العالمية للبحث عن الذهب والمعادن المصاحبة لعام 2020

الجولة الثانية

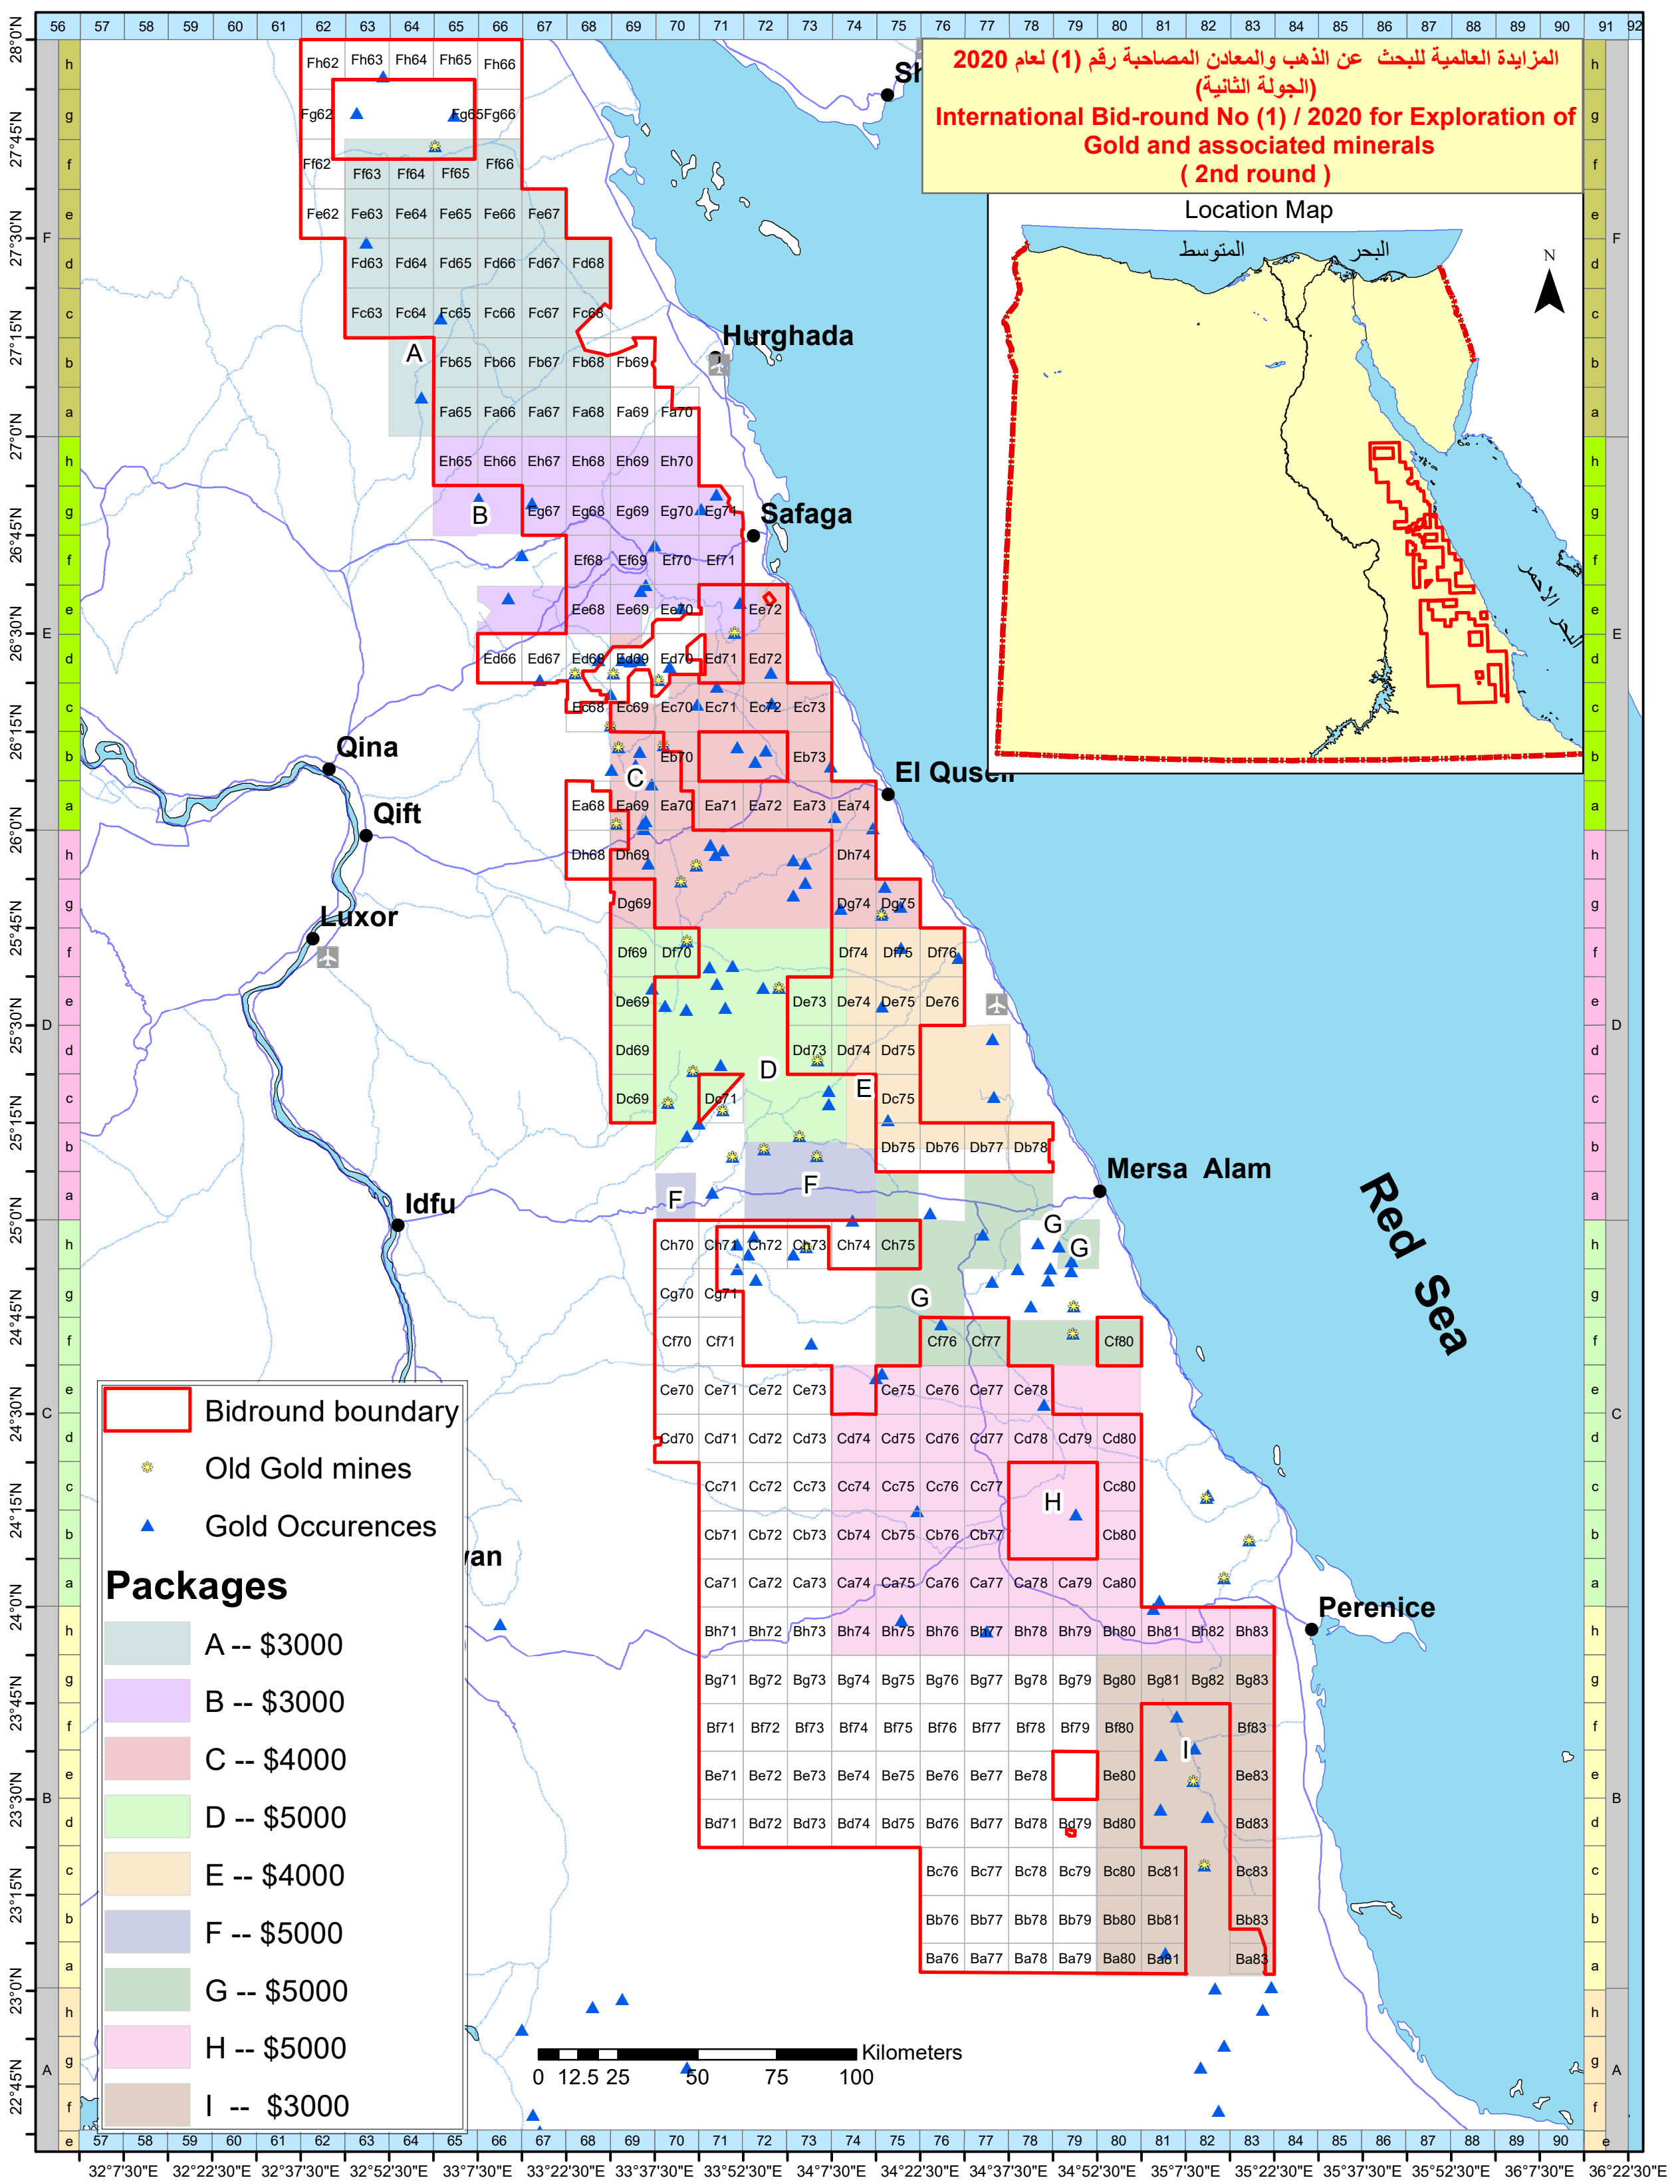

القاهرة - سبتمبر - 2020

المزايدة العالمية للبحث عن الذهب والمعادن المصاحبة لعام 2020

حزم المعلومات

السعر بالدولار الأمريكي	المساحة (كم2)	المنطقة	
3000	6161	وادي العرف	A
3000	5048	فاطيري وسمنة	B
4000	9685	وادي كريم	C
5000	4206	أم سمرا و بكاري	D
4000	4208	أم الروس	E
		البرامية	
5000	4197	عتود وأم عود/حنجالية	G
5000	11672	حماطة	H
3000	4906	وادي خداع	I

المزايدة العالمية للبحث عن الذهب والمعادن المصاحبة رقم (1) لعام 2020
(الجولة الثانية)
International Bid-round No (1) / 2020 for Exploration of Gold and associated minerals (2nd round)

Legend

- Bidround boundary
- ★ Old Gold mines
- ▲ Gold Occurences

Packages

- A -- \$3000
- B -- \$3000
- C -- \$4000
- D -- \$5000
- E -- \$4000
- F -- \$5000
- G -- \$5000
- H -- \$5000
- I -- \$3000

☆ حزمة معلومات (A) :

- المنطقة : وادي العرف.
- الموقع : شمال الصحراء الشرقية ويبعد حوالي (350 كم) جنوب شرق القاهرة.
- المساحة التي تغطيها حزمة المعلومات :
= 6161 كم².
- سعر حزمة المعلومات : = (3000 \$).
- رسوم الاطلاع : 10% تخصم من ثمن حزمة المعلومات الأساسية عند الشراء.

Content of Package A

- 1A-A review of the promising Gold pearing inosit Eastern desert. Egypt
- 2A-Geological and geochemical exploration and results wadi El Urf gold occurrence north eastern desert
- 3A-Geology and geochemical prospecting for gold and non- ferrous metals in Ras Ghareb area
- 4A-Geology of Egypt, volume II part III (1937)
- 5A-Geology of wadi Abu Hod area north eastern desert of Egypt
- 6A-prospecting for gold in wadi deposit of Esh Elmellaha area north eastern desert of Egypt
- 7A-Reconnaissance of the gold deposits of the eastern desert of Egypt
- 8A-Report on geological and geochemical exploration of gold and associated minerals at wadi sabir area north eastern desert, Egypt
- 9A-Report on the result of geochemical prospecting in the area of Umm Balad, Dara, Umm mangol, wadi Dib north eastern desert
- 10A-Results of prospecting for non-ferrous metals, Rare metals andGold in the area of wadi Hammad, El-Atrash, El Ghozah and Fatira Elbeida
- 11A-Results of prospecting for rare metals, non- ferrous metals and Gold in the area of wadi Dara, El Urf, Melaha Abu marwa, Hammad and Bali in 1976- 1977
- 12A-Technical Report SGS-TR-2011-5
- 13A-The gold ore formations in the eastern desert of Egypt
- 14A-Old gold mines in the eastern desert
- 15A-Mineralogical and geochemical studies on the copper mineralized rocks of wadi dara area, N.E.D
- 16A-Alluvial Gold
- 17A-Copper Mineralization of wadi dara,2003
- 18A-Genesis of Gold Mineralization in the North Eastern desert
- 19A-Gold exploration in egypt from pharaonic to modern times
- 20A-Mode of occurrance and genesis of the gold mineralizion in N.E.D.E
- 21A-New prospects for Gold mineralization in Egypt
- 22A-On Gold mineralization in Eastern desert,egypt
- 23A-Polymineralization in wadi hammad
- 24A-Some new Occurrences of Gold Mineralization
- 25A-Studies on some mineral deposits of Egypt (1970)
- 26A-The gold ore formation in eastern desert,Egypt

☆ حزمة معلومات (B) :

- المنطقة : فاطيري وسمنة.
- الموقع : شمال الصحراء الشرقية،
فاطيري تقع على بعد حوالي (30 كم)
شمال طريق سفاجا- قنا بينما سمنة تقع
جنوب طريق سفاجا- قنا.
- المساحة التي تغطيها حزمة المعلومات :
= 5048 كم².
- سعر حزمة المعلومات : = (\$3000).
- رسوم الاطلاع : 10% تخصم من ثمن
حزمة المعلومات الأساسية عند الشراء.

Content of Package B

- 1B-A review of the promising Gold Bearing deposit Eastern desert. Egypt
- 2B-An assessment of Gold potential of the Fatiri, Umm Rus and Barramiya in the eastern desert
- 3B-Geological and geochemical exploration of gold at wadi Gasus and wadi Saqi areas
- 4B-Geological of wadi Alsaqiyah area central eastern desert, Egypt
- 5B-Geology of Egypt, volume II part III (1937)
- 6B-Geology of Jabal Shayib Albanat area, north eastern desert
- 7B-Project of prospecting –revisionary work on gold in eastern desert of UAR
- 8B-Reconnaissance of the gold deposits of the eastern desert of Egypt
- 9B-Reconnaissance survey of gold mineralization associated with the banded iron formation
- 10B-Results of prospecting for non-ferrous metals, Rare metals and Gold in the area of wadi Hammad, El-Atrash, El Ghazah and Fatira Elbeida
- 11B-Technical Report SGS-TR-2011-5
- 12B-The Gold ore formation in eastern desert of Egypt
- 13B-Old gold mines in eastern desert , egypt
- 14B-anew classification of gold deposit.(2004)
- 15B-Genesis of Gold Mineralization in the North Eastern desert ,Annals Geol.Surv.Egyptxx (1997)
- 16B-Gold exploration in egypt from pharaonic to modern times
- 17B-Gold-Sulphides hosted in fractured felsite dykes
- 18B-Mode of occurrence and genesis ,journal of Mineralogical Society of Egypt Vol. 9, 1997
- 19B-New prospects for Gold mineralization in Egypt
- 20B-On Gold mineralization in Eastern desert
- 21B-Polymineralization in wadi hammad
- 22B-Studies on some mineral deposits of Egypt (1970)
- 23B-the gold ore formation in eastern desert

☆ حزمة معلومات (C) :

- المنطقة : وادي كريم.
- الموقع : وسط الصحراء الشرقية على بعد (35 كم) جنوب غرب مدينة القصير البحر الأحمر، وتبعد حوالي (600 كم) جنوب شرق القاهرة.
- المساحة التي تغطيها حزمة المعلومات :
= 9685 كم².
- سعر حزمة المعلومات : = (\$4000).
- رسوم الاطلاع : 10% تخصم من ثمن حزمة المعلومات الأساسية عند الشراء.

Content of Package C

- 1C-A review of the promising Gold bearing in situ Eastern desert. Egypt
- 2C-Geological and geochemical exploration of gold at wadi Gasus and wadi Saqi areas
- 3C-Geological of wadi Alsaqiyah area central eastern desert, Egypt
- 4C-Geology of Egypt, volume II part III (1937)
- 5C-Mineral deposits and occurrences Eastern desert
- 6C-Project of prospecting –revisionary work on gold in eastern desert of UAR
- 7C-Reconnaissance of the gold deposits of the eastern desert of Egypt
- 8C-Reconnaissance survey of gold mineralization associated with the banded iron formation
- 9C-Report on detailed geological and geochemical exploration at south el Quseir area (Zaydun, Sharm Elbahri, Abu Mureiwa and Nusla) gold occurrences
- 10C-report on generalization of geological data on mineral resources of the UAR carried out under contract 1247
- 11C-Report on geological and geochemical exploration on gold occurrences at north and south Elquassier area, central eastern desert, Egypt
- 12C-Report on the main tectonic features of central and northern eastern desert
- 13C-Report on the results of prospecting work for rare and non-ferrous metals and gold
- 14C-Report on the results of the prospecting work for gold in El Sid-Semna area
- 15C-Results of prospecting for gold, Rare and non-ferrous metals accomplished, near wadi Abu ziran, Sadmein, Sagiya queih, Abu Shigeila, etc
- 16C-Results of prospecting for rare non-ferrous metals and gold in the area of wadis Elkash, Kareim and zeidan
- 17C-Technical Report SGS-TR-2011-5
- 18C-The gold ore formations in the eastern desert of Egypt
- 19C-Old gold mines in the eastern desert of Egypt
- 20C-analysis and tectonic significance of structural lineaments of wadi kareim area, C .E.D
- 21C-a new classification of gold deposits.(2004)
- 22C-From compression to extension in the wadi kid area, Sinai, Egypt: pan african extensional collapse in the ANS.

- 23C-Composition and origine of fluid inclusion in gold -bearing quartz veins at wadi Sodmein,Fifth International conference of geology,cairo university,2000
- 24C-Contribution to the petrology,petrochemistry of hamret ghanm.egyption mineralogist,vol(5)
- 25C-Deformational phase and tectonic Evolution of Neoproterozoic rock of wadi kareim,Annals of the geological survey of Egypt, VolumeXXVIII 2005
- 26C-Fluid inclusions and mineral chemistry of wadi mahasin gold,Annals of the geological survey of Egypt, Vol. XXIII– 2000)
- 27C-Fracture analysis of Gold mineralized Occurrence in Eastern desert ,Bulletin of faculty of Science, vol 41.No 1.2 (2001)
- 28C-Genetic Affiliations of wadi El-Sherm El-Qibli Alkali feldspar ,Egyptian Journal of geology “Vol. 62 – 2018)
- 29C-Geochemical study on the metavolcanic rocks and iron deposits occuring,The Bulletin, July 1992, No. 60
- 30C-geochemistry and tectonic significance ,geology of arab worled cairo uni,(1992)
- 31C-Geochemistry of Fe-Mn oxide ,Delta Journal Of Science,Vol II 1987
- 32C-Geology and petrography of the Hammamat conglomerate of Wadi Kareim (1978)
- 33C-Geology of El-Hammamat Wadi Um Seleimat are, Eastern Desert (1968)
- 34C-Geology of the district around Wadi El-Dabbahm F.D.E. (1988)
- 35C-Geology of the Tethys proceedings of the first international conference on the geology of the Tethys, Cairo University, November 2005 volume I
- 36C-Geology of Wadi Karim ,Bulletin of Science and technology, volume II (1959)
- 37C-Ghoneim, Applicaton of remote sensing techiques on aster data,vol.62. (2018)
- 38C-Gold Bearing-Quartz vein s in island Arc Meta volcanics case ,Annals of the geological survey of Egypt, Vol. XXxii – 2015
- 39C-Gold exploration in egypt from pharaonic to modern times
- 40C-Gold mineralization Associated the banded iron
- 41C-mineral deposist in eastern desert,annal vxxx(2008)
- 42C-Muweilih conglomerate,Qufit-Quseir,geology surv egypt (1996)
- 43C-On Gold mineralization in Eastern desert
- 44C-On the Mineralogy and Geochemistre of som Gold Bearing Quartz vein

45C-Pan africa basel genesis of the desert of egypt : lithology,geochemistry and tectonic setting

46C-Petrology,Mineral chemistry and metamorphism of two pan african ophiolitic metagabbro ,Egyptian journal of geology Vol. 50, 2006

47C-Petrology and Geochemistry of wall rock alteration of Semna Gold ,Annals of the geological survey of Egypt, Vol. XXX – 2008

48C-Quantitative strain analysis of some late-tectonic Hammamat sediment

49C-Studies on some mineral deposits of Egypt (1970)

50C-Suture zone molasse-type hammamate sedimentary rock of wadi Kareim

51C-The gold ore formations in the eastern desert of Egypt (1984)

52C-The responsibility of the chemist and gold prospector in realizing an accurate fire assay result

☆ حزمة معلومات (D) :

- المنطقة : أم سمرا و بكارى.
- الموقع : وسط الصحراء الشرقية، أم سمرا تقع على بعد (60 كم) شمال شرق البرامية، و بكارى تبعد حوالي (30 كم) من طريق إدفو- مرسى علم.
- المساحة التى تغطيها حزمة المعلومات :
= 4206 كم².
- سعر حزمة المعلومات : = (\$5000).
- رسوم الاطلاع : 10% تخصم من ثمن حزمة المعلومات الأساسية عند الشراء.

Content of Package D

- 1D-A review of the promising Gold bearing inosit Eastern desert. Egypt
- 2D-An assessment of Gold potential of the Fatiri, Umm Rus and Barramiya in the eastern desert
- 3D-Contribution to th Study of EL-Yatima and Umm Samra Granitic Plutons,Eastern Desert,Egypt
- 4D-Geology of Egypt, volume II part III (1937)
- 5D-Geology of El-Daghabag-El ginidi district
- 6D-Geology of El-shalul;elbakria
- 7D-GEOLOGY OF GEBEL EL IN EIGI DISTRICT
- 8D-Geology of Umm Salatit-El Hisinat District(Barramiya East)-1956
- 9D-Main Mineral deposits produced in egypt,1959
- 10D-Mineral deposits and occurrences between (lat 25 00 - 26 00 N) Eastern desert
- 11D-Project of prospecting –revisionary work on gold in eastern desert of UAR
- 12D-Reconnaissance of the gold deposits of the eastern desert of Egypt
- 13D-Reconnaissance survey of gold mineralization associated with the banded iron formation
- 14D-Report on detailed geological and geochemical exploration at south el Quseir area (Zaydun, Sharm Elbahri, Abu Mureiwa and Nusla) gold occurrences
- 15D-Report on geological and geochemical exploration on gold occurrences at north and south El Qussier area, central eastern desert, Egypt
- 16D-Report on Gold –Silver Mineralization at UM Samra- Abu Quraiya-Sigdit- UM Salatit Central Eastern desert, Egypt
- 17D-Report on the results o detailed prospecting work for rare metals
- 18D-Report on the results of prospection work for gold and rare metals by the Barramiya party in the area of Barramiya in 1971-1972 (the ARE central eastern desert)
- 19D-Result of detailed prospecting-gold exploration work carried out at Tila Godalla area, central Easter desert
- 20D-Results of prospecting and revisory work for Gold at Barramiya ,Sukary and UM Nar deposits (report of Barramiya party (1974-1975))
- 21D-Results of prospecting for rare non-ferrous metals and gold in the area of wadis Elkash, Kareim and zeidon
- 22D-Technical Report SGS-TR-2011-5

23D-The gold ore formations in the eastern desert of Egypt

24D-Specifications of Egyptian ore

25D-Old gold mines in the eastern desert of Egypt

26D-Ancient gold beneficiation in Wadi Daghbag, Annal vol XXVII(2005)

27D-A new classification of gold deposits.(2004)

28D-Contribution to the petrology, petrochemistry of Hamret Ghanm

29D-Ore mineralogy, geochemistry and fluid inclusions of some gold bearing quartz veins in C.E.D.E

30D-Fracture analysis of Gold mineralized Occurrences in Eastern desert

31D-Genetic Affiliations of Wadi El-Sherm El-Qibli Alkali feldspar

32D-Geochemical exploration for Gold at Tallet Gadalla in Eastern desert

33D-Geochemical of Um Rus Gold-Quartz vein

34D-Geology and geochemistry of Daghbag - Elmia Ophiolite, C.E.D.E

35D-Geology and tectonic evolution of Gabal El Shalul, C.E.D.E

36D- Application of remote sensing techniques on Aster data of Elfawakher El Sid area

37D-Gold exploration in Egypt from pharaonic to modern times

38D-Gold mineralization Associated the banded iron

39D-Contribution of gamma ray on mineral exploration and mapping at Gabal El Bakrya, C.E.D.E

40D-DELINEATION OF SUBSURFACE STRUCTURES OF WADI ELMIAH -WADI ASH SHALUL, C.E.D.E

41D-Listvenite-lode association at the Barramiya Gold mine(2011)

42D-mineral deposits in eastern desert

43D-On Gold mineralization in Eastern desert, Annals Geol.Surv.Egypt,vi(1976)

44D-On the Mineralogy and Geochemistry of some Gold Bearing Quartz vein

45D-Petrogenesis of granitoid rocks

46D-Petrography and geochemistry of tectonic melange rocks El Bakrya

47D-Project for gold deposits

48D-Studies on some mineral deposits of Egypt (1970)

49D-The responsibility of the chemist and gold prospectors in realizing an accurate fire assay

☆ حزمة معلومات (E) :

- المنطقة : أم الروس.
- الموقع : وسط الصحراء الشرقية، تقع على بعد (80 كم) جنوب القصير، وتبعد حوالي (8 كم) من ساحل البحر الأحمر.
- المساحة التي تغطيها حزمة المعلومات :
= 4208 كم².
- سعر حزمة المعلومات : = (\$4000).
- رسوم الاطلاع : 10% تخصم من ثمن حزمة المعلومات الأساسية عند الشراء.

Content of Package E

- 1E-A review of the promising Gold pearing inposit Eastern desert. Egypt
- 2E-An assessment of Gold potential of the Fatiri, Umm Rus and Barramiya in the eastern desert
- 3E-Ancient gold mine working in upper Egypt
- 4E-Geology of Abu Diab district
- 5E-Geology of Egypt
- 6E-Gold prospection in UM Nar area central eastern desert Egypt
- 7E-Inspection of minig camps
- 8E-Mineral deposits and occurrences between (lat 25 00 - 26 00 N) Eastern desert
- 9E-Mineral resources of the UAR (Report on generalization of geological data on mineral resources of the UAR carried out under contract 1247 in 1966-1968)
- 10E-Project for the treatment of Umm Rus gold mine ore at Sukari gold mine milling plant
- 11E-Project of prospecting –revisionary work on gold in eastern desert of UAR
- 12E-Reconnaissance of the gold deposits of the eastern desert of Egypt
- 13E-Reconnaissance survey of gold mineralization associated with the banded iron formation
- 14E-Report on detailed geological and geochemical exploration at south el Quseir area (Zaydun, Sharm Elbahri, Abu Mureiwa and Nusla) gold occurrences
- 15E-Report on geological and geochemical exploration on gold occurrences at north and south El Qussier area, central eastern desert, Egypt
- 16E-Report on geology and gold prospection in Umm Rus area. Eastern desert,Egypt
- 17E-Report on the results o detailed prospecting work for rare metals
- 18E-Report on the results of prospecting work for rare and non-ferrous metals
- 19E-Report on the results of prospection work for gold and rare metals by the Barramiya party in the area of Barramiya in 1971-1972 (the ARE central eastern desert)
- 20E-Results of prospecting and revisory work for Gold at Barramiya ,Sukary and UM Nar deposits (report of Barramiya party (1974-1975))
- 21E-Technical Report SGS-TR-2011-5
- 22E-The gold ore formations in the eastern desert of Egypt
- 23E-Topographic report of Umm Rus gold prospecting area south eastern desert Egypt
- 24E-Umm Rus gold prospecting area south eastern desert, Egypt

25E-Old mines in the eastern desert of Egypt

26E-Quartz bearing gold in eastern desert

27E-Specifications of Egyptian ores

28E-petrological and magnetic study

29E-A short account on the results of Geochemical prospecting

30E-Structural control and tectonic setting of dyke rocks in Umm Elrus

31E-Fluid-Rock interaction and its implications on gold mineralization at Umm Elrus gold mine, E.D.E

32E-Geochemical of Umm Rus Gold-Quartz vein

33E-geological, structural and petrochemical aspects of dyke of Umm Rus

34E-Geology and Geochemical exploration for gold in banded iron

35E-geology and mineral deposits of Umm Rus sheet

36E-Geology of the basement in Umm Rus gold mine

37E-Gold exploration in Egypt from pharaonic to modern times

38E-Gold mineralization associated with the banded iron

39E-metagabbro Association

40E-mineral deposit in eastern desert

41E-Mineralogy of Umm Rus gold bearing-Quartz vein

42E-On Gold mineralization in Eastern desert

43E-ON THE MINERALOGY AND GEOCHEMISTRY OF SOME GOLD BEARING QUARTZ VEINS IN CENTRAL EASTERN DESERT

44E-Petrography and geochemistry of granodiorites of Umm Rus, Eastern Desert

45E-Petrography and petrochemistry of basement rocks at Umm Elrus, E.D.E

46E-Project for gold deposits

47E-Studies on some mineral deposits of Egypt

48E-the area in the neighbourhood of Umm Rus

49E-The responsibility of the chemist and gold prospector in realizing an accurate fire assay

☆ حزمة معلومات (G) :

- المنطقة : **عتود و أم عود/ حنجلية.**
- الموقع : **على بعد (55 كم) جنوب غرب**
مرسى علم وجنوب منجم جبل السكري،
وتقع أم عود/ حنجلية على بعد (50 كم)
جنوب غرب مرسى علم.
- **المساحة التي تغطيها حزمة المعلومات :**
= 4197 كم².
- **سعر حزمة المعلومات : = (\$5000).**
- **رسوم الاطلاع : 10% تخصم من ثمن**
حزمة المعلومات الأساسية عند الشراء.

Content of Package G

- 1G-A review of the promising Gold bearing in situ Eastern desert. Egypt
- 2G-A comparative study of gold Cyanidation of Atud ore
- 3G-An Appraisal of the gold potential in the Sukari and Atud areas of the eastern desert, Egypt
- 4G-Ancient gold mine working in upper Egypt
- 5G-Atud gold prospecting area south eastern desert, Egypt
- 6G-Cyanidation of Atud gold-bearing rocks
- 7G-Cyanidation of El Hangaliya gold bearing rocks
- 8G-Final report on prospecting and evaluation work of the Hangaliya gold deposit area eastern desert
- 9G-Geological and geochemical exploration of gold at Umm Ud, Leweiewi, Allawi and Wadi El Hommer areas, South eastern desert, Egypt
- 10G-Geology of Egypt, volume II part III (1937)
- 11G-Mineral deposits and occurrences between (lat 25° 00' - 26° 00' N) Eastern desert
- 12G-Mineral resources of the UAR (Report on generalization of geological data on mineral resources of the UAR carried out under contract 1247 in 1966-1968)
- 13G-preliminary activity report on prospecting and evaluation of Hangaliya gold deposit
- 14G-Project of prospecting –revisory work on gold in eastern desert of UAR
- 15G-Reconnaissance of the gold deposits of the eastern desert of Egypt
- 16G-Report on geological and geochemical exploration on gold occurrences at north and south El Qussier area, central eastern desert, Egypt
- 17G-Report on geology mineralization at Atud gold mine and Atud area
- 18G-Report on prospecting work carried out by the mechanical expedition at Atud eastern desert
- 19G-Report on sukari concession pharaoh gold mines in eastern desert, Marsa alam area, Egypt
- 20G-Report on the photogeological and photodrainage maps of Gabal Atud area
- 21G-Report on the results of prospecting for gold and rare metals in the area of Atud, Sukary Abu Rasheid in (1971-1972) central eastern desert
- 22G- On prospecting revisory work for gold at brramia , sukari and um nar deposits

23G-Results on prospecting and prospecting exploration at Umm Ud gold ore field in the central eastern desert

24G-Technical Report SGS-TR-2012-5

25G-The gold ore formations in the eastern desert of Egypt

26G-Specifications of egyptian ores

27G-Old gold mines in eastern desert of egypt

28G-A NOTE ON A GOLD-BEARING QUARTZ-WOLFRAMITE VEIN AT ATUD EASTERN DESERT

29G-anew classification of gold deposit.(2004)

30G-Ashort account on the results of Geochemical prospecting

31G-Contribution on to the geology and economic evaluation of the main Auriferous Quartz vein of Atud gold mine, Eastern desert, Egypt. 1994

32G-Distribution of gold among quartz,sulphides and oxides in the hangalia gold mine, E.D.E

33G-Gold mineralization and itsalteration zones at hangalia gold mine,E.D.E

34G-Fluid inclusions in the mesozonal gold deposit at Atud mine

35G-Gabbro-metagabbro Association

36G-GEOLOGY AND STRUCTURE OF THE AREA EAST OF GABAL ATUD

37G-Geology of Atud District

38G-GEOLOGY, PETROGRAPHY AND TECTONIC IMPLICATION OF GEBEL ATUD37G-Geology of Atud District

39G-Gold exploration in egypt from pharaonic to modern times

40G-Gold mineralization Associated the banded iron

41G-Mapping potential areas for Gold and base metals mineralization

42G-mineral deposit in eastern desert

43G-Mineralogy and mineral chemistry of microgranite at gabal nugrus area, south eastern desert, Egypt-vol.61-2017

44G- Studies on some mineral deposits of Egypt

45G-On GOLD MINERALIZATION IN THE EASTERN DESERT OF EGYPT

46G-ON THE MINERALOGY AND GEOCHEMISTRY OF SOME GOLDBEARING QUARTZ VEINS IN THE CENTRAL EASTERN DESERT OF EGYPT AND THEIR ALTERED WALL ROCKS

47G-Petrography and Economic Appraisal of the Gold mineralization in Atud mine, Eastern desert, Egypt-Egyptian mineralogist-vol.5-1993

48G-PETROGRAPHY AND GEOCHEMISTRY OF GEBEL ATUD GABBROS SOUTH EASTERN DESERT EGYPT

49G-Petrography and Geochemistry of some Altered Granite Pebbles from Atud Area Eastern Desert

50G-Petrology, mineralogy, geochemistry and gold content of the younger granites of rabdi area, south eastern desert, Egypt

51G-Project for gold deposits

52G-Reconnaissance study on Economic minerals of Wadi Nugrus stream sedimentsResources and distribution-Sci.J.Fac.Minufia Univ.-vol. XXIII-2009

53G-The pesponsipilty of the chemist and gold ,annal vxxx(2008)

54G-Wall rock alteration, Atud gold mine

Content of Package H

- 1H-A review of the promising Gold bearing in situ Eastern desert. Egypt
- 2H-Detailed report on the work carried out by Hamata expedition
- 3H-Geological and geochemical studies of some occurrence of Gossan in south eastern desert
- 4H-Geological and geophysical prospection for mineral deposits at Hamata area, south eastern desert
- 5H-Geological and geophysical prospection for mineral deposits in the area of Qulsn al atsham, Ar-radah and El-homer
- 6H-Geology and geochemical exploration of Hamata area
- 7H-Geology of Egypt, volume II part III (1937)
- 8H-Geology of Sheikh Shadli- Hamata district, south eastern desert
- 9H-Intergrated geophysical and geological surveys to detect probable areas of metallic mineralization in Hamata region, south eastern desert
- 10H-Project of prospecting –revisionary work on gold in eastern desert of UAR
- 11H-Reconnaissance of the gold deposits of the eastern desert of Egypt
- 12H-Report on detailed geological and geochemical exploration at Berenice area gold occurrences
- 13H-Report on geological and geochemical exploration at Gabal Nikeiba area, south eastern desert, Egypt
- 14H-Results of geochemical exploration on Hamata area
- 15H-Technical Report SGS-TR-2011-5
- 16H-The gold ore formations in the eastern desert of Egypt
- 17H-Specification of egyptian ores
- 18H-Old gold mines in the eastern desert
- 19H-Mineralogy and origin of the precambrian massive sulphide ,atshan area,egypt
- 20H-Metavolcanic and older granites of central eastern desert of egypt are cogenetic island arc regime, mineralogical and geochemical evidences
- 21H-Gold exploration in egypt from pharaonic to modern times
- 22H-A contribution to the geochemisrty of volcanites and associated mineralization in hamata talc mine,eastern desert egypt

- 23H-Some petrochemical features of the gabbroic rocks of hamata area,eastern desert egypt
- 24H-Mapping potential areas for Gold and base metals mineralization
- 25H-mineral deposit in eastern desert,annal vxxx(2008)
- 26H-On gold mineralization in the Eastern Desert of Egypt
- 27H-Prognostic Criteria of Copper Mineralization in the South Eastern desert,
- 28H-Project for gold deposits 1983
- 29H-Remobilization of gold from a chalcopyrite - pyrite mineralization Hamash Gold mine
- 30H-Report on the prospecting work carried out in Wadi Hamata Area- south Eastern Desert (1953-1954)
- 31H-Studies on some mineral deposits of Egypt (1970)
- 32H-Summary of prospecting in wadi El gemel area eastern desert (1928 - 1951)
- 33H-Geology and Geochemical studies of gneissose and granitic rocks from abu ghalaga area,S.E.D.E
- 34H-The responsibility of the chemist and gold ,annal vxxx(2008)
- 35H-Petrographical and petrochemical characteristics of some dykes in hamata area,S.E.D.E

☆ حزمة معلومات (I) :

- المنطقة : وادي خدع.
- الموقع : جنوب الصحراء الشرقية،
يبعد حوالي (45 كم)، جنوب الطريق
الساحلي مرسى علم- برنيس- شلاتين.
- المساحة التي تغطيها حزمة المعلومات :
= 4906 كم².
- سعر حزمة المعلومات = (\$3000).
- رسوم الاطلاع : 10% تخصم من ثمن
حزمة المعلومات الأساسية عند الشراء.

Content of Package I

- 1I-A review of the promising Gold Bearing deposit, Eastern desert. Egypt
- 2I-Final report on detailed geochemical exploration study for gold and silver Wadi Khuda, South eastern desert, Egypt
- 3I-Final report on detailed geochemical prospecting of south Wadi Khuda , south eastern desert, Egypt
- 4I-Geology and tectonic Evolution of wadi beitan area,Southeastern desert
- 5I-Geology of Egypt, volume II part III (1937)
- 6I-Geology of gabal Musrar area south eastern desert of Egypt
- 7I-Project of prospecting –revisionary work on gold in eastern desert of UAR
- 8I-Reconnaissance of the gold deposits of the eastern desert of Egypt
- 9I-The gold ore formations in the eastern desert of Egypt
- 10I-First investigation on a shear-zone related gold mineralization at El Beida, SE-Desert,Egypt-aspects of pan african tectonics-vol.32-1991
- 11I-Geochemical studies on silver-Gold mineralization at wadi hodein area south Eastern Desert,Egypt
- 12I-Geochemistry and geothermobarometry of the Um Eleiga neoproterozoic island arc intrusive complex, SE Egypt genesis of a potential gold-hosting intrusion
- 13I-Gold exploration in egypt from pharaonic to modern times
- 14I-Lode- gold mineralization in convergent wrench structures Examples from South Eastern Desert, Egypt-J.of geochemical exploration-vol.114-2012
- 15I-Microchemistry and stable isotops systematics of gold mineralization in a gabbro-diorite complex, SE egypt
- 16I-mineral deposit in eastern desert
- 17I-On gold mineralization in the Eastern Desert of Egypt
- 18I-Studies on some mineral deposits of Egypt (1970)
- 19I-The responsibility of the chemist and gold prospector in realizing an accurate fire assay
